PROFESSIONAL SUMMARY

Senior Frontend Engineer with 6+ years of experience building scalable, high-performance web applications using React.js and Next.js, with additional depth in Angular 16 and Vue.js. Experienced in translating complex business requirements and Figma designs into responsive, accessible, and pixel-perfect user interfaces. Strong expertise in component-driven development, state management, API integrations, performance optimization, and cross-browser compatibility. Proven track record of delivering enterprise-grade applications across EdTech, Survey Management, Financial Services, and SaaS domains while collaborating with cross-functional Agile teams.

AREAS OF EXPERTISE

Frontend Technologies:

React.js, Next.js, Angular 16, Vue.js, JavaScript (ES6+), TypeScript, HTML5, CSS3

UI Frameworks & Styling:

Tailwind CSS, Material UI (MUI), Bootstrap 4/5, SCSS/SASS, Responsive Web Design

State Management & Data Fetching:

TanStack Query (React Query), REST APIs, Axios, Redux Toolkit

UI/UX & Design Tools:

Figma, Zeplin, Design Systems, Component Libraries, Wireframing

Testing & Optimization:

Cross-Browser Compatibility, Performance Optimization, Debugging, Lighthouse Optimization

Accessibility:

WCAG Compliance, Semantic HTML, ARIA Standards, Keyboard Navigation

Development Tools:

Git, GitHub, VS Code, Chrome DevTools, Agile/Scrum, Jira

PROFESSIONAL EXPERIENCE

Sr. Frontend UI Developer

HubbleHox Pvt Ltd | Mumbai, India

November 2023 – Present

Projects: Learning Management System (LMS), Academic Survey Application, Smart Staff Selection, Non-Academic Survey Application.

- Led frontend development of enterprise-grade applications using React.js, Angular 16, Material UI, and Tailwind CSS.
- Redesigned the Learning Management System (LMS) with a fully responsive architecture, improving usability across desktop, tablet, and mobile devices.
- Developed reusable UI components and design patterns, reducing development effort and ensuring consistency across applications.
- Integrated TanStack Query for efficient API management, caching, and background synchronization, resulting in improved application responsiveness and reduced redundant API requests.
- Built a dynamic survey builder platform using Angular 16, enabling users to create multi-level surveys with conditional logic, customizable workflows, and real-time previews.
- Improved frontend performance through code optimization, component refactoring, and modern rendering practices.
- Collaborated closely with Product Managers, Designers, Backend Engineers, and QA teams within Agile environments to deliver high-quality releases.

Software Engineer

BigBinary | Remote

June 2021 – September 2023

- Developed scalable frontend applications using React.js and Next.js for SaaS products serving thousands of users.
- Contributed to products including BigBinary Academy and neetoCode, enhancing user experience, accessibility, and platform usability.
- Collaborated with cross-functional teams in Agile development cycles, participating in sprint planning, code reviews, and feature delivery.
- Followed modern frontend best practices including component-driven architecture, responsive design, and accessibility standards.

Software Engineer

JAWK Softwares | Pune, India

March 2021 – May 2021

- Played a key role in developing InvestYadnya, a share market education platform, by transforming Zeplin designs into responsive, high-fidelity user interfaces.
- Ensured cross-browser compatibility and mobile responsiveness, delivering a consistent user experience across devices.

Frontend UI Developer

Webonise Pvt Ltd | Pune, India

December 2019 – March 2021

- Contributed to multiple web applications with a focus on UI performance and consistency using HTML5, SCSS, Bootstrap, and jQuery.
- Taxsutra: Converted complex Zeplin wireframes into interactive, standards-compliant frontends; collaborated with backend developers on Drupal PHP to manage views, blocks, and components.
- Taxsutra Reservoir: Optimized the first-of-its-kind cross-publisher eBook platform for tax/legal professionals, focusing on responsive design and seamless reading experience across mobile and desktop.
- Webonise.com: Developed responsive pages for the company's official website, adhering to modern design guidelines and improving visual appeal and navigation.

Frontend UI Developer (Intern)

Spidrontech LLP | Pune, India

April 2018 – February 2019

- Built modern, responsive interfaces using Angular 6, HTML5, and CSS3.
- Toquing: Developed and maintained components for a French food-sharing platform, ensuring a seamless user journey through modular, maintainable frontend code.
- Colisdays: Created fully responsive web pages based on Figma designs for a platform connecting travellers and shippers in France.

EDUCATION

Bachelor of Engineering (Computer Science)

Anantrao Pawar College of Engineering & Research, Parvati, Pune (2014 – 2017)

Diploma (Computer Science)

Shri Chhatrapati Sambhajiraje Polytechnic, Dhangawadi, Pune (2012 – 2014)
